Motion *re* Program Review

Referred by the Resource Allocation Committee

Whereas the program review process should be as transparent as possible;

Whereas the program review process should not only identify programs in need of improvement or discontinuation but also programs that have the potential for excellence with additional resources; and

Whereas all programs should provide the same information for review by the IG Program Review Committee; now therefore be it

Resolved that the IG Program Review Committee make explicit the criteria used to evaluate academic programs; provide detailed information regarding recommendations the committee makes either to invest, augment, reduce, withdraw or change the flow of resources in, among and between academic programs and submit the same to the Senate Resource Allocation Committee and ultimately the full Senate for additional review and comment before being submitted to the Provost.
