Budget Development Process Overview

Annual Budget Development for each division consists of multiple components each year involving E&G and Auxiliary funds where Division Heads may work with their division to:

- 1) provide detailed budgeting requirements for the upcoming fiscal year's
 - a. New initiatives,
 - b. Carry Forward requests
 - c. Equipment Trust Fund requests, and
- 2) **re-allocate base discretionary budgets.**

The Office of Budget and Financial Planning (OBFP) provides instructions and training during the month of January each year on how to complete **Phase II** of the Budget Development process using the Budget Development Module (BDM) in Self Service Banner (SSB). The detailed instructions will also be made available during this time each year on the OBFP's website under [Resources](#).

The module will allow divisions to review and submit requests to reallocate E&G and Auxiliary base discretionary budgets for the upcoming fiscal year in an effort to help reduce the number of budget transfers needed during the fiscal year. As an efficiency measure, divisions are asked to incorporate this component in their internal budget development process. As a result, divisions may have additional instructions and/or deadlines that differ from those provided in these instructions.

Self Service Banner Budget Development Module

General Information

The SSB-BDM will enable authorized Banner Finance users to query and update their respective E&G and Auxiliary base discretionary budgets for the upcoming fiscal year. Banner Finance users will be able to reallocate base discretionary budgets using a user-friendly worksheet in this module. The adjustments made through this module are permanent, thereby mitigating the need to continually perform one-time budget transfers throughout the fiscal year.

The FY 2026 base discretionary budgets were calculated using the FY 2025 original base discretionary budget plus/minus any authorized permanent adjustments.

Each year in January, the OBFP will notify each Division Head by email when the module is available to divisions. The notification advises the Division Head to inform the appropriate personnel in the Division when the module is available, provide any Division-specific instructions and deadlines that must be followed, and review all Division reallocation requests to ensure the total base discretionary budget allocation for the Division has not been impacted and all changes submitted are acceptable by the deadline.

Please note that SSB-BDM should be used only to redistribute E&G and Auxiliary base discretionary budget allocations. New funding requests will not be accepted through this process.

The net impact on re-arraying base budgets allocations MUST have a NET ZERO result.

Reallocation requests must be submitted electronically via the SSB-BDM to the OBFP by **Monday, March 3, 2025**. After this date, no additional changes can be made within the SSB-BDM.

If you have any questions regarding these procedures, please contact the OBFP at 831-6342.

Budget Submissions

A. Personnel Services

- Departmental full-time position budgets will automatically be loaded by the OBFP at authorized levels.
- **Part-time and wage positions are considered discretionary expenditures and must be budgeted as part of the base discretionary budget allocation in the SSB-BDM (i.e. 1,500 hour wage, temporary wage, PT-AP, one-time pays, overtime, etc.).** FICA (account 611130) will need to be added for wages entered in categories 611250, 611410, 611430, 611442, 611450, 611451, and 611452.
- The OBFP will adjust FY 2025 base budget allocations associated with the following state mandatory funding issues:
 1. Full-time salary and fringe benefit costs as approved in the Appropriation Act.
 2. Health insurance cost differences due to open enrollment or eligible life changes.
 3. Work study/scholarship wages (E&G only) will be budgeted based on your department's approved allocation of student workers. *Auxiliary departments are responsible for funding student wages (undergraduate and graduate) within their approved allocation.*
 4. Auxiliary only - Auxiliary indirect cost budgets will be added by the OBFP unless otherwise noted within your allocation.

B. Non-personnel Services (NPS) – NPS budgets should also be reviewed and reallocated to the appropriate budget category as needed to cover anticipated costs using this module (i.e. telecommunications including wireless communication stipends, VBS copiers, travel, maintenance, etc.). ****Recovery account budget allocations listed in Appendix A should not be adjusted.**

C. Text - Please provide justifications/explanations for budget reallocations in the TEXT field provided in the module. This will document and provide a reference for Division reviewer(s) and the department regarding the need for the reallocation.

D. Review - Division Heads should ensure that the division's total base discretionary budget allocation for each funding source has not been impacted and all changes submitted are acceptable by the OBFP deadline.

Caution: Please note after clicking **Submit** if more than one person is working with the budget concurrently a warning message will appear at the bottom of your screen (see example below). If this warning appears, you should contact the Banner Finance user(s) listed to ensure they are out of the budget worksheet before proceeding to make adjustments.

You may click **OK** to proceed; however, if you choose to continue be aware that the last change posted by any concurrent users will be the one reflected in the budget line table.

The Budget Development Worksheet will be under the locked message (if applicable). This is the worksheet you will use to make changes and add text to document adjustments.

To make changes in the Proposed Budget amount, go to the appropriate line under Change Value and enter your change. **Please note that your overall budget must remain the same.** This process provides the option to re-array the budget categories based on projected needs for the new fiscal year.

- For example, if a wage hire is planned and wages are currently not budgeted, enter the dollar amount needed for wages in the 611410 line and FICA in the 611130; then subtract that total dollar amount from another NPS line within your organizational budget.
- For each adjustment (increases and decreases), add a brief explanation in the Text field accessible by clicking the *Account Type/Code* hyperlink. Additional guidance on this feature is provided below.

Organization Lock: (Deans/Directors/Department Heads and Division Heads Only)

The **Maintain Organization Lock Out** option is used to prevent (lock) or permit (unlock) changes to the Budget Development Worksheet. The locking process has a cascading effect; when you lock or unlock at the division level (higher organization), the others beneath it are locked or unlocked also. If you have questions about division level hierarchy, please contact your respective OBFP budget manager.

Division Heads will be given access to lock-out their respective organizations from making changes based on their needs to review and revise budgets prior to the final deadline. Division Heads will need to notify departments of Division deadlines to submit changes in SSB.

When the Division Head locks down the budget table, the Banner Finance user will not have access to make further changes (only query access will be available). If additional adjustments are needed, the Division Head can temporarily unlock a specific organization.

On the identified deadline date, the OBFP will lock-out all Banner Finance users to reconcile and begin finalizing the budget development process.

Follow these steps to lock/unlock an organization:
