

Referrals in Starfish

If a faculty or staff member determines a student may require additional tutoring or career advising, they can easily refer a student to the proper services using **Referrals** in Starfish.

1. From your home page select **My Students** the **Students** dropdown. This shows all students that you are connected with in Starfish.

2. You can filter the search to narrow your results to a specific group of students.

Check the box by the name of the student for whom you wish to process a referral for.

6. Choose referral **type**, **course context** and **comment**.

The screenshot shows the 'Create Referral' form for a student named 'Student name'. The form includes a 'Referral' dropdown menu, a 'Course Context' dropdown menu, and a 'Comment' text area. A callout box points to the 'Referral' dropdown, showing two options: 'Career Center Referral' and 'Tutoring Referral', both marked as '* Disclosable under FERPA'. Another callout box points to the 'Course Context' dropdown, stating: 'If this referral item applies to a specific course in which the student is enrolled, select the course in the course context menu.' A third callout box points to the 'Comment' text area, stating: 'Enter additional comments for the student and the department they are being referred to, both of whom will be notified of the referral.' The form also features 'Never Mind' and 'Save' buttons at the top and bottom.

7. Don't forget to **save**.
