Joyce, Diana Description

Joyce, Diana Letter of Approval

I plan to apply for an employment-based internship. I have read and understand the deadline dates as stated. I understand the importance of following deadlines, especially its importance as a social work student, and its impact on my professionalism. I understand if I do not follow the deadline dates, I may not receive approval for an employment-based internship. I understand my proposal must be completed at each stage in order to move on to the next stage in the process, to include the final submission.
